

# Tricks you may missed for the highlight option

In this infographic we are demonstrating how you can use the highlight option depending on your use case:

**Use case 1:** Make a glossary global

**Use case 2:** Include terms of a glossary within another space

**Use case 3:** Exclude terms of a glossary from another space

## Use case 1: Highlight terms globally or make a glossary global

# Use case 2 & 3:

**Include** terms of a glossary within another space &  
**Exclude** terms of a glossary from another space
