

Smart Courses Metrics

Reporting is an important pillar while choosing the adequate LMS for your organization. Smart Courses for Confluence enables you to view and export metrics on three different levels:

User dashboard

New!

New filtering options

Course contributors

More metrics

Assigned course

Exam course

Course contains questions

Who can access the user dashboard?

- Confluence admin
- Smart Courses admin

Why can this new user dashboard be helpful?

It gives you a single overview of each attendee's metrics (Confluence user). You no longer need to merge metrics from each course using an excel sheet.
